DARE THE FUTURE
Be there in 2023

#Research

ReVolution #Research is an annual XR centered competition open to any research laboratories, universities and/or research departments of companies exploring XR for their future applications and solutions. Since 2006, the most innovative XR projects have been rewarded by a selected jury made of some of the finest professionals and scientists.

If your project is selected, you will be exhibiting as a ReVolution #Research project at the Laval Virtual Exhibition 2023 and will benefit from :

- A free exhibition booth for 5 days (value of 3 321€ excl tax) **from 12th to 16th April 2023**
- Greater visibility
- Great networking opportunities with potential business partners or customers and major accounts
- An exhibition space that will also allow you to get feedback from the general public

N.B: The three best projects retained by the pre-selection jury will be invited to pitch their project in front of our jury on site and try to win the Award for Best Research project at the Laval Virtual Awards Ceremony.

Entry name

GENERAL INFORMATION

What is the name of your organisation?

Who will be our main contact?

Please enter the main contact's phone number:

Please enter the main contact's email address:

Add your organization website:

Upload the logo of your organization:

Please enter your organization's social media (Twitter, LinkedIn, Facebook, Instagram):

What is the name of the project?

For communication purposes.

In order to have a more detailed view of your project, please upload a PowerPoint presentation.

Maximum 5 slides

We would like to know more about your project. Please write a short summary of it.

1000 words

Maximum 1000 characters.

Add a link to your project website: (optional)

Upload the logo of your project: (optional)

Please enter your project's social media (Twitter, LinkedIn, Facebook, Instagram): (optional)

What are the full names of all team members ?

Please, write the last names in capital letters to avoid making mistakes. (For instance: Nikola TESLA, Albert EINSTEIN)

Please provide us with a floor installation plan (9 square meters) for your experience.

We would also need a quick experience scenario for professional and public days

1000 words

Maximum 1000 characters

Please, list the equipment you would need but could not carry to the exhibition or any logistic requirements for material transportation.

Please be aware that these are just requirements and will need to be discussed with our logistic team if your project is selected.

A picture is worth a thousand words, please upload a picture which would explain the entire experience for the public.

In your opinion, what would be the three key points of your project?

What innovations do you bring to the table and/or what makes your project different.

Last but not least, we would need a video of your experience in order to help the jury to provide the best appreciation about your project.

Please keep it under 2 minutes and a YouTube video is highly recommended. This is, of course, for deliberation purposes only. We commit ourselves not to disclose your project, therefore a non disclosure agreement can be established on demand.
